

Lucy Xin Liu

PRODUCT DESIGNER · AI PRODUCTS · COMPLEX WORKFLOWS

Location: Toronto, ON · Phone: +1 647-856-8805 · Email: liuxin20011206@gmail.com
LinkedIn: linkedin.com/in/xinliu2001 · Portfolio: lucy-xin-portfolio.pages.dev

Master of Information candidate in User Experience Design at the University of Toronto with experience translating user research and real-world AI workflow testing into product requirements, interaction systems, and implemented improvements. Approaches ambiguous problems by clarifying goals, structuring complex workflows, and iterating through stakeholder feedback and usability evidence.

EDUCATION

University of Toronto — Master of Information, User Experience Design Sep 2025 – Jun 2027 (Expected)

GPA: 3.9 / 4.0 · User Research, Information Architecture, Interaction Design, Usability Testing

University of Toronto / Sheridan College — Honours Bachelor of Arts Sep 2021 – Jun 2025

Communication, Culture & Information Technology (CCIT) · Art & Art History

EXPERIENCE

AI Product Design Intern | Geeelink May 2026 – Aug 2026

Shenzhen Zhixu Evolution Intelligent Technology Co., Ltd. · Shenzhen, China

- Interviewed 9 directing, production, and project-management stakeholders to map an end-to-end AI video workflow; translated rework, version traceability, and asset-consistency issues into product requirements.
- Validated 3 end-to-end projects through final edit, synthesizing 9 cross-module issue clusters into 16 prioritized requirements for task state, context, asset inheritance, versioning, and editing.
- Translated findings into workflow and high-fidelity design decisions with product and engineering; project evidence records 33 implemented improvements and post-release validation targets.

Exhibition Planning & Design Intern | Shenzhen Business Daily Jul 2024 – Sep 2024

Brand Events Studio, Shenzhen Press Group · Shenzhen, China

- Worked with Futian and Yantian district government stakeholders to clarify industry-showcase and communication needs for China Hi-Tech Fair pavilions; translated feedback into themes, content zones, visual direction, and interactive experience concepts.
- Designed a theme mark and display visuals for the Futian booth at the International Digital Energy Expo; coordinated exhibition content for 6 featured exhibitors and 26 low-carbon demonstration sites through production and on-time launch.

SELECTED PROJECTS

IDE Education Consulting Website — UI / UX Designer Jul 2026 – Aug 2026

- Led a 3-person team, translating client business and communication goals into site structure, information architecture, content hierarchy, and responsive page frameworks.
- Owned the end-to-end interface and visual direction, built reusable page patterns, and iterated through client reviews; coordinated with development and content teammates to deliver an approved design package now preparing for use.

OurJourneyMan — Project Lead & UI Designer Jan 2026 – Apr 2026

- Designed a traceable two-sided commission workflow and reusable high-fidelity interface system for proposals, alternatives, pricing, issue reporting, progress, messaging, and approvals.
- Moderated 6 client and artisan usability sessions; all participants completed the core tasks. Reworked alternative comparison and simplified the high-burden proposal form into a guided flow.

SnapBudget — Project Lead & Product Designer Sep 2025 – Dec 2025

- Led a 5-person team in synthesizing 10 interviews (personally conducted 2), an individual literature review, and user segmentation; translated student budgeting barriers into photo, voice, and manual-entry flows and integrated the end-to-end prototype.
- Contributed to 10 moderated usability sessions (moderated 2 and documented 2), iterating guidance and confirmation paths; final course-project score: 93 / 100.

SKILLS

Research & product: Interviews, usability testing, qualitative synthesis, requirements definition, competitive benchmarking, AI workflow evaluation, MVP prioritization

Design: Information architecture, interaction design, wireframing, high-fidelity prototyping, design systems, cross-functional collaboration

Tools: Figma, Miro, Adobe Illustrator / Photoshop / InDesign, HTML / CSS

Languages: Mandarin Chinese (native); English (full professional proficiency)
