PROFESSIONAL SUMMARY

Master of Information candidate in User Experience Design at the University of Toronto, with hands-on experience in AI product design, UX research, competitive analysis, and product documentation. Experienced in translating complex B2B creative AI workflows into clear product requirements, interaction flows, wireframes, and stakeholder-facing materials.

CORE SKILLS

- **Product & Strategy:** Product requirements, MVP prioritization, competitive analysis, feature gap analysis, stakeholder documentation
- **UX Design:** User research, information architecture, user flows, wireframes, high-fidelity prototypes, usability testing
- **AI Product:** AI Product: Agentic workflows, AI video generation, creative AI tools, quality-check flows, revision workflows
- **Tools:** Figma, Adobe XD, Miro, Illustrator, InDesign, Premiere Pro, Google Workspace, HTML/CSS, Python

EDUCATION AND TRAINING

Master of Information, University of Toronto, Toronto, Canada 09/2025 – 06/2027
(expected)

- Major: **User Experience Design**; GPA: **3.9/4.0**
- Main courses: *UX Design Studio; Information Architecture; Project Management;*
- **Key Projects:**
 - Led a team of 5 to design a budgeting app through user interviews, think-aloud usability testing, user flows, onboarding screens, and high-fidelity prototype iterations in Figma
 - Led a team of 4 to define system requirements and execution scope through user stories, personas, customer journey maps, and implementation plans

Bachelor of Arts, University of Toronto, Toronto, Canada 09/2021 – 06/2024

Bachelor of Arts, Sheridan College, Oakville, Canada 09/2021 – 06/2024

- Double Major: **CCIT; Art & Art History**;
- Main courses: *Design Thinking; Game Design; Design and Implementation of Multimedia Documents*
- **Key Project:** Led a client growth project for Hi Yogurt by analyzing user funnels and digital touchpoints; assessed customer engagement roadmap and proposed UX-driven website improvements supported by performance metrics

PROFESSIONAL EXPERIENCE

AI Product Design Intern, Shenzhen Zhixu Evolution Intelligent Technology Co., Ltd., Shenzhen, China
05/2026 – 08/2026

- Mapped the **end-to-end AI production workflow** for Geeelink AI Production Control Engine, covering creative brief intake, agent-led requirement clarification, planning, scripting, asset creation, storyboard, video generation, editing, review, and export.
- Conducted **competitive research** on AI video generation, agentic workflows, and creative AI tools, including Runway Aleph, Google Flow, LTX Studio, LibTV, Jimeng AI, and ReelClaw; identified feature gaps, product opportunities, and MVP priorities.
- Synthesized internal discussions, **product testing** feedback, and production pain points into personas, user journeys, workflow problems, and product requirements for B2B clients and AI production teams.
- Designed and iterated workflow structures, wireframes, and interaction patterns for agent questioning, quality-check status, version canvas, client feedback, review center, asset library, cost tracking, and revision flows.
- Authored product manuals, competitive analysis reports, weekly updates, and stakeholder-facing materials to align product, design, engineering, and business teams on product direction and feature scope.

Event Experience Design Intern, Shenzhen Economic Daily, Shenzhen, China

07/2024 – 09/2024

Lucy Xin Liu

(647) 856-8805 | liuxin20011206@gmail.com | Toronto, ON | [linkedin.com/in/xinliu2001](https://www.linkedin.com/in/xinliu2001)

- Designed pavilion zoning, color schemes, and signage using **Adobe Illustrator**; aligned various internal and external stakeholders and prepared presenting decks, materials, and run-of-show documents for execution
- Partnered with local communities on major public events (e.g., China Hi-Tech Fair, International Digital Energy Expo), translating requirements into venue layouts, attendee flows, and wayfinding plans
- Coordinated a public law awareness enhancement event by supporting on-site operations, facilitating guest engagements and managing real-time crowd-flow adjustments

Teaching Assistant & Marketing Design Support, Kumon, Shenzhen, China

04/2023 – 08/2023

- Designed promotional posters and public-facing marketing materials for Kumon programs by understanding customer needs and reframing educational content into clear, audience-friendly visuals and messaging
- Provided academic support through grading, tutoring, and structured explanations, while responding to student and parent inquiries via community channels to clarify learning progress and expectations

EXTRACURRICULUM ACTIVITIES

- Social Media Team Member, We Media Club, Canada 01/2025 – 06/2025
- Volunteering, SPARK, Canada 10/2023 – 04/2024
- **Interests:** Textile; Baking; Playing jigsaw puzzles
- **Languages:** Fluent in English, Mandarin
