

Lucy Xin Liu

PRODUCT DESIGNER | AI WORKFLOWS | COMPLEX SYSTEMS

Toronto, ON | (647) 856-8805 | liuxin20011206@gmail.com
lucy-xin-portfolio.pages.dev | linkedin.com/in/xinliu2001

Product designer who turns research into clear workflows, reviewable states, and implementation-ready interfaces. Experience includes an early-stage B2B multi-agent AI product, commissioned client work, and end-to-end UX research, prototyping, and validation.

EXPERIENCE

AI Product Design Intern

May 2026 - Aug 2026

Geeelink (Shenzhen Zhixu Evolution Intelligent Technology Co., Ltd.) | Shenzhen, China

- Interviewed **9 production professionals** to map Geeelink's multi-agent workflow, translating pain points into requirements for review, versioning, and controllable editing.
- Led a standardized benchmark of **13 AI filmmaking competitors** and Geeelink, producing **31 records** on time, cost, intervention, consistency, and B2B readiness to guide priorities.
- Independently designed high-fidelity async, cross-project, versioning, and controllable-editing flows; validated a **five-episode series**, prioritized failures into P0/P1/P2, and supported **internal release and validation**.

UI/UX Designer - iDE Education Website

Jul 2026 - Aug 2026

Commissioned client project for iDriveCareer Canada Consulting Ltd. | 3-person team

- Worked directly with the client to clarify services, communication goals, visual direction, sitemap, and content priorities, translating the brief into **information architecture and page structure**.
- Designed responsive UI and interactive prototypes in Figma; presented the work and iterated through client feedback into a reusable page system **approved for delivery**.

SELECTED PROJECTS

SnapBudget - Team Lead & Product Designer

Sep 2025 - Dec 2025

12-week graduate UX studio project | 5-person team

- Led synthesis across 10 interviews and designed a scan-first expense flow with photo, voice, and manual entry; iterated the prototype through **10 moderated usability sessions**. Instructor score: **93/100**.

OurJourneyMan - Team Lead & UI Designer

Jan 2026 - Apr 2026

12-week graduate UI design project | 3-person team

- Designed a traceable, dual-sided commission experience for clients and artisans; owned the complete high-fidelity UI and moderated 6 sessions in which **every participant completed the core tasks**.
